"Nurturing Nature's Human Potential"

Assessment of Vocation, Occupation and Career Aptitudes (AVOCA)

As part of the The Self Discovery Series, this tool helps people to align their personality profile with the different types of Tasks, Jobs, Profession or Career, so they can select the best job fit.

In a counseling session, combined with the CREDO Personality Profile, the AVOCA tool provides a career planning map, based on one personality profile. This enables one to match strong personality traits and aptitudes and see which tasks or job demands have the best match.

Career Counselling Sessions Cover:

Work Career Values

Aid in correctly selecting the type or job, career, or work organization that better suits our personality

Aptitudes and Interests

Continua of Opposite Interests

Where we are now

Review and clarify values, strengths and vocational preferences and the type of career that may best suit us

Detailed map of each part of the brain and whether we are more left or right brained and more of a 'thinker' or 'emotionally' inclined

Career Development Wheel

Career Opportunities vs Our Working World

Who We Are vs. Our Inner Self

Our Ideal Job vs. Our Working Satisfiers
