

# Brain Dynamics Global

**"Nurturing Nature's Human Potential"**

## **CREDO Aptitude and Talent Profiling (CAT)**

Discover what individuals are naturally good at! Aptitudes, which include talents and intelligences, are natural abilities. They include artistic, clerical, intellectual (IQ), manual, mechanical, musical-rhythmic, naturalistic, numerical, sequential, socio-emotional (EQ), verbal-linguistic and visual spatial abilities.

- We can test for aptitudes by measuring the degree of correctness in these abilities and the speed in which they are performed.
- These tests enable one to discover aptitudes in a more objective way. From this, assessment of the type of higher studies, work tasks, or jobs are more suitable and where one can develop more excellence.

**Contact Us:  
603-7957-1130**

### **Standard Test Administered (in English language)**

Administrative
