**"Nurturing Nature's Human Potential"**

## **Cultural Values and Dimensions Survey Self (CVDS)**

*Discover your cultural values, or your organizational culture.*

This CVDS includes more than 68 personal values and a set of 48 cultural dimensions. This survey helps us understand the different cultural 'values and laws' that shape our group behavior.

**Contact Us:  
603-7957-1130**

In this globalized world, the CVDS helps us discover whether we are more 'Eastern', 'Western' or 'Glocal' in our value system.

This is important as values (very strong beliefs) influence human behavior- which collectively shapes the culture of groups, organizations, and nations. For example, the national cultures of Australia, Japan or Malaysia differ quite significantly. Even organized cultures within the same culture can differ.

**Discover where you, your team or your organization's values differ by completing the CVDS.**
